

# She's All Lady

Joe Nichols

Yeah, I saw you watching me tonight  
From across the room  
I appreciate the drink  
That was nice of you

Thanks for coming out to see me  
I hope you liked the show  
Yeah, that's right  
I settled down about six months ago

No, she ain't here tonight  
She stayed at home  
Yeah, it sure does get lonely  
Out here on the road

By looking in your eyes  
I can tell what's on your mind  
Yeah, I'd love to drive you home  
An' hold your body close to mine

You're everything  
A man could dream of, baby  
You're all woman  
But she's all lady

I met her at a Baptist church in Tennessee  
She was looking for someone  
And I was praying it was me

No, she never thought she'd fall in love  
With a guitar man  
Yeah, it took some getting used to  
She does the best she can

No, she don't like to stay at home alone  
Oh, I don't need your number  
She's probably waiting by the phone

By looking in your eyes  
I can tell what's on your mind  
Yeah, I'd love to drive you home  
An' hold your body close to mine

You're everything  
A man could dream of, baby  
You're all woman  
Oh, but she's all lady

No, it ain't you  
Lord knows, you're a sight  
Yeah, I probably could  
But I could never make believe it's right

Rather be alone  
An' I know that sounds crazy  
'Cause you're all woman  
But she's all lady

You're all woman  
But she's my lady
