

## Black & Blue

Joel Faviere

I used to be sure of what I want  
Now I'm concerned from all I lost  
Battle and burn on our own thoughts  
Louder in time, I just let go  
Painted red but I'm just black  
Black in the lungs, why can't I come back  
Miles apart from what I'm worth  
Louder the time, I just don't know  
What do we need but never works  
Why do we kiss the ones we hurt  
Love isn't face down in the dirt  
I could just fake it  
Well, every word that's used to turn me black and blue  
Back to what I'd do to make you would  
No one knows that every night is loud  
While you sit down beside yourself  
Live and let down  
How do I, how do I get out  
What if fate was lack of faith  
Years but beautifuler ain't  
Lose control and blame it all on me  
Ugly and insecure  
Nothing for in more or  
I'm just not sure I'll make it through today  
Why do you tell me I'm still it  
Then run towards me fo a kiss  
These walls are the hell that I live in  
Lost and let me in  
Why do you tell me I'm still it  
Then run towards me fo a kiss  
These walls are the hell that I live in  
With every word that's used to turn me black and blue  
Back to what I'd do to make you would  
No one knows that every night is loud  
While you sit down beside yourself  
Live and let down  
How do I, how do I get out  
Yeah, yeah, how do I get out  
How do I get out  
Oh, how do I get out  
How do I get out  
No one knows that every night is loud  
While you sit down beside yourself  
Live and let down  
How do I, how do I get out  
How do I, how do I get out
