

If You're Watching After Me

Joel Faviere

I woke up alarmed at the scene of the dark
I run to your bedroom door
Your incident eyes stare back at mine
I couldn't believe that sight
This isn't a real body, so still
A portrait of a good fight,
Good fight, good night
When I'm falling deep down under
I'm always gonna wonder
If your watching after me
Watching after me when
I'm falling deep down under
I'm always gonna wonder
If you're watching after me
Wathcing after me

Falshes of bright light behind the blinds
A whole world of sound blocked out
Huddled in the cold with glass intertwined
Hate tread
I just scream out
This isn't a real body, so still
A portrait of a good fight,
Good fight, good night
When I'm falling deep down under
I'm always gonna wonder
If you're watching after me
When I'm falling deep down under
I'm always gonna wonder
If you're watching after me
Watching after me because
I'm falling down
I'm falling down
Are you watching after me?
Tell me please are you watching
After me Please
Oh please, good night
