

# Just For You

Joel Faviere

ts best to leave when you can't feel shit  
(I feel so numb)  
You could tell the world that we don't fit  
(you look so dumb)  
So don't text me please, cause I won't read it  
(my self-control is gone)  
This black chair's where I sit for days  
Researchin how to turn this page  
I came here for you  
yeah only you  
I guess they're right  
love isnt true  
I came to see  
your body breathe  
your breath is toxic  
talk to me  
blah blah blah  
My words are sweet  
Your lips are candy  
can't you see? oh my lord  
the road is steep  
and the slope is still me  
blah blah blah  
My words are sweet  
Your lips are candy  
can't you see? oh my lord  
the road is steep  
and the slope is slippery  
I've been sleepin' days on end  
Oh,I dream away the pain to take this in  
Now I'm high, dealin' with these demons  
Even though I try, I am so sorry, I mean it  
I came here for you  
yeah only you  
I guess they're right  
love isnt true  
I came to see  
your body breathe  
your breath is toxic  
talk to me  
blah blah blah  
My words are sweet  
Your lips are candy  
can't you see? oh my lord  
the road is steep  
and the slope is still me  
blah blah blah  
My words are sweet  
Your lips are candy  
can't you see? oh my lord  
the road is steep  
and the slope is slippery
