

# Me Myself & I

Joel Faviere

In my head like a damn stampede  
Corvette mindset vroom vroom  
High speed  
Full throttle in the wrong direction  
I just guess I'll call it even  
With my favourite weapon

These drugs just invite me  
Fear can be so frightening  
Wrong feels like the right thing  
I swear it hurts, it burns, it stings

I your turn & don't look back  
Your turn to stab a back  
Back to that habitat  
Where you keep all your habits at

Me, Myself & I  
I don't feel so lonely  
When I close my eyes  
Why do I even try  
Yeah yeah  
Just Me, Myself & I

Burnt out my murdered mind  
No noteriety  
Can't hold on to sobriety  
Against myself in overtime  
Low key society  
I'm chocking on my irony

Lead me to sunsets please  
Green things seem to get get me  
Beat me til' I repeat  
Disease conscious  
No contest I can plead

I learn to shut my mouth  
Mountains of love all fall down  
Mary can you bail me out?  
The money monster tree  
Has always lost count

I your turn don't look back  
Your turn to stab a back  
Back to the habitat where  
I keep all my habits at

Me, Myself & I  
I don't feel so lonely  
When I close my eyes  
Why do I even try  
Yeah yeah  
Just Me, Myself & I  
(2x)
