

# They Spent Forever

John Anderson

She bought her wedding dress at the Good Will bargain center  
His wedding suit was a faded shirt and jeans  
Most folks said they'd never make it through the winter  
But they made it after all it seems

They'd spent forever lovin' each other  
They've got a true love deep in their hearts  
They'd spent forever stayin' together  
They've got a true love and they knew it from the start

He got a job workin' at the factory  
She stayed home and took care of the kids  
And they never had a lot, but they never did complain  
They just thanked the Lord for what they had instead

And they'd spent forever lovin' each other  
They've got a true love deep in their hearts  
They'd spent forever stayin' together  
They've got a true love and they knew it from the start

He still brings her flowers on special occasions  
And Lord he wishes she was by his side  
He's longing for the day when they'll be joined together  
Like on the day when she became his bride

And they'd spent forever lovin' each other  
They've got a true love deep in their hearts  
They'd spent forever stayin' together  
They've got a true love and they knew it from the start

They'd spent forever lovin' each other  
They've got a true love deep in their hearts  
They'd spent forever stayin' together  
They've got a true love and they knew it from the start  
They've got a true love and they knew it from the start
