Black Rose

John Cale

Everybody melting but the heat just won't affect ya Backlot casanovas and black russian defectors Are here to take your picture away I know you don't have space left on your windowsill

Black rose - long thorn
White rose - still born
Standing on the corner just baying at the moon
Just another little miss too-much-far-too-soon

Dreamstreet romance is not the same as burning love You can light a thousand candles, you can wear your satin glove And you can dance, dance, dance from here to sunday You can dance, dance, dance from here to sunday

Black rose - long thorn
White rose - still born
Standing on the corner howling at the moon
Just another little miss too-much-far-too-soon
