

Love Again

John Denver

G D Ami
I didn't think it could happen again

D D7 G
I'm just too old and set in my ways

D Ami
I was convinced I would always be lonely

D D7 G
All of the rest of my days

C G
Maybe I gave up on romance

Ami D7
In my longing to give up the pain

G D Ami D7 G
I just didn't believe I would ever love again

I was like one who had shut myself in
Closed the windows, locked all the doors
Afraid of the dark and the beat of my heart
Yet knowing there had to be more
Though it sounds like a great contradiction
It's the easiest thing to explain
You see, I was afraid I might never love again

What does it take for a blind man to see
That there's more there than just meets the eye
What are the ways that the magic comes in
That can turn a song into a sigh
Sometimes I think that I'm dreaming
Or maybe I'm going insane
Maybe it's just that I'm falling in love again

C G
Here I am standing beside you

Ami D7
Oh, life's such a wonderful game

G D Ami D7
Look at me now I'm falling in love

G D Ami D7
Look at me now I'm falling in love

G D Ami D7 G
Look at me now I'm falling in love again.
