

# Darkness and Light

John Legend

Fire and the ice colliding, I wanna go deep and dive in  
It's heaven on Earth but hell of a night to melt into one  
She's never been afraid of sirens, head down but keep drivin'  
Damn we might crash moving so fast but baby

Don't stop, I need it  
Release me, it's too hard for me to hold  
My heart bleeding, your touch, it thrills me to the bone  
Oh Lord, forgive us, honest, we've lost control baby  
Nothing can stop this love, nothing can stop this love  
Never gon' get enough, nothing can stop it, oh

Darkness and light, streaming, the end of our life beginning  
No longer alone, my will become gone, we melt into one  
Both hands on the floor, you go low  
Who was I before? I don't know  
And who am I now? Your body shows how  
The past just has no meaning

Don't stop, I need it  
Release me, it's too hard for me to hold  
My heart bleeding, your touch, it thrills me to the bone  
Oh Lord, forgive us, honest, we've lost control baby  
Nothing can stop this love, nothing can stop this love  
Never gon' get enough, nothing can stop it, oh

Oh yeah, yeah

Oh, don't stop, I need it  
Release me, it's too hard for me to hold  
My heart bleeding, your touch, it thrills me to the bone  
Oh Lord, forgive us, honest, we've lost control baby  
Nothing can stop this love, nothing can stop this love  
Never gon' get enough, nothing can stop it
