

Remember Us

John Legend

Oh, I remember this
Ooh yeah
Yeah, yeah

Don't wake me up, I'm in this dream
Where we talk, touch, and each word leads
Back to love that's evergreen
At least that's how it used to seem

Oh, I remember this
Yeah, I remember this
Some days, I sit and reminisce
Do you?

I'm a patient man, but in these times
Where we can't dance or compromise
I miss your laugh, I miss your eyes
They're still there in the back of my mind

I remember this
Yeah, I remember this
Some days, I sit and reminisce
Oh, do you?

Oooh, we loved without borders
Oooh, we broke all rules
Oooh, but gravity caught us
Oh, let's go back to the moon

Oh, I remember this
Yeah, I remember this
Some days, I sit and reminisce
Oh, do you?

Sometimes love can be like this
Sometimes life turns and twists
Through every hit and every miss
You're the one I can't forget

I still remember this
Hold on to every kiss
Somedays I sit and reminisce
Oh, do you

Oooh, we loved without borders
Oooh, we broke all the rules
Oooh, but gravity caught us
Oh, let's go back to the moon

Oh, I remember this
Yeah, I remember this
Some days, I sit and reminisce
Oh, do you?

Oh, we melted the winter
Oh, we tasted the fall
Oh, but sweet turned to bitter

Oh, like there's no season at all

Oh, I remember this
Say you remember this
Oh, I remember us
Do you?

(Do you, do you, do you?)
Do you remember us?
(Do you, do you, do you?)
Oh baby
(Do you, do you, do you?)
I remember us

I remember you and I was like lightning and thunder
Remember that night you met my daddy and mama
Got drunk for the first time, we laughed all summer
Laughed at Martin, we starved
It was part of the come-up

Actin' juvenile to Juvenile, backin' it up
Actin' a nut in the Acura, the number one stunna
I remember you the same
You made me laugh till we cried
Had knots in our stomachs
You remember parties, nights up at the skating rink?
Goin' crazy, watchin' Kobe win another ring
We would argue, kiss and make up, then fall asleep
You went to church with me, singing Kingdom Melodies
Date nights watchin' old movies
Halloween, I was Kim, you was B.I.G. in Coogi
I remember how you laughed when I tripped and fall
Give you the side-eye like, "Baby, that ain't funny at all"
Then I crack up
You and I, you know we always had to act up
Let's back up
My mama didn't like it when we shacked up
You packed up
Remember love takes practice
Shootin' in the gym like Kobe and Shaq was
(That's a fact, bruh) Yeah
I remember what Nip said
Ten toes down, you hit me up
"Hey big head"

I miss your visits
I still remember your home phone digits
'Cause I could always call on you
And I hope you remember me too
And I hope you remember me too

Oh, I remember us

Don't wake me up, I'm in this dream
(Don't wake me up, I'm in this dream)
Don't wake me up, I'm in this dream
(Don't wake me up, I'm in this dream)

Don't wake me
Don't wake me
Oh no, baby

Don't wake me up, I'm in this dream

Don't wake me up, I'm in this dream

Oh, baby

I want to remember us

Oh, do you?
