

# What Goes Around

John Miles

You thought you had to lie, baby, that's a shame.  
You thought I wouldn't find out what's his name.  
I think you'd better leave, just be prepared.  
Won't find my kinda' lovin' just anywhere.  
All the time I wondered why  
You haven't been yourself .  
A voice inside kept saying  
"It must be somebody else".

I never saw what was coming down.  
What goes around, comes around.  
My heart just shattered in pieces on the ground.  
What goes around, comes around.

Now even though it hurts me, I understand  
The way a little flirting gets so out of hand.  
I had a special someone I hurt so bad.  
That's how I lost the best friend that I have ever had.  
In the night with your new lover  
Burning like a flame,  
Don't it make you wonder  
If he'll treat you the same?

I never saw what was coming down.  
What goes around, comes around.  
My heart just shattered in pieces on the ground.  
What goes around, comes around.  
Twist an old cliché  
Till the words ring true.  
What you do to someone,  
It can happen to you.  
Cause we're all links  
In this human chain,  
Just the cause and effect  
Of so much passion and pain.

I never saw what was coming down.  
What goes around, comes around.  
My heart just shattered in pieces on the ground.  
What goes around, comes around. Yeah.

Oh, what goes around, comes around.  
My heart just shattered in pieces on the ground.  
What goes around, comes around.

What goes around, comes around.  
What goes around, comes around.  
What goes around, comes around.  
What goes around, comes around
