

# There She Goes

John Prine

Hey, there she goes  
Well I though she'd never leave  
Heaven knows  
Well it sure gives me the creeps  
You know I went and loved that woman  
To the power of height  
We both got jivin' fever  
Screwed our heads uptight  
Then it came to blows  
Hey hey hey  
There she goes. There she goes.

Hey there she goes  
Just a walkin' down the street  
I suppose  
The next fellow that she meets  
Should have her head examined  
By an x-ray machine  
So he can see all of those pictures  
That I've already seen  
Just so he knows  
Hey hey hey  
There she goes. There she goes.

Well, there must be something somewhere  
That makes me want to hurt myself inside  
Yeah, we were regular Dr Jekyll  
But together  
We were Mr. and Mrs. Hyde  
What a rough rough ride.

Hey there she goes  
She's walking out on me  
With all her clothes  
Lookin' fine as she could be  
Well, I seen her on down at the courthouse  
I was sober as the judge  
We'd tried to talk things over  
But the grudge just wouldn't budge  
I said adios  
Hey hey hey  
There she goes. There she goes.

Well, there must be something somewhere  
That makes me want to hurt myself inside  
Yeah, we were regular Dr Jekyll  
But together  
We were Mr. and Mrs. Hyde

Hey There she goes.

I though she'd never leave  
Heaven knows  
Well it sure gives me the creeps  
You know I went and loved that woman  
To the power of height  
We both got jivin' fever

Screwed our heads uptight  
Then it came to blows  
Hey hey hey  
There she goes. There she goes. There she goes. There she goes.
