## **Still in Love with You**

John Waite

You've been livin' with your broken heart I've been trying hard to play the part But some pretender with an easy smile can tell you it's alright I ain't got nothin' if you leave me now, just a hypocrite with broken vows If I could change the way of circumstance, I'd do it just for y ou I'm (still in love) I'm still in love (I'm) these days (still in love) I find, I'm still in love I've been staring in an empty glass In a downtown bar, thinkin' 'bout the past I'm spinning 'round you like a moth in flames, but I still can' t help myself And should you tell me that you've changed your mind Made some decisions, gonna cross that line I can always be available, 'cos time is on my side I'm (still in love) I'm still in love (I'm) these days (still in love) I find, I'm still in love with you Time will tell the truth for us, it can only make us strong, it 'll be alright (Solo) I'm (still in love) I'm still in love (I'm) these days (still in love) I find, I'm still in love with you (I'm) in your eyes (still in love) in my mind, I'm still in lov e with you (I'm) these days (still in love) I find, I'm still in love with you (I'm) can't you see me falling (still in love) I'm still in lov e with you (I'm) these days (still in love) I find, I'm still in love with you (I'm) can't you see me falling (still in love) I'm still in lov e with you... \_\_\_\_\_ \_\_\_\_\_
