

Beans For Breakfast

Johnny Cash

I couldn't hear you for the TV, I didn't know you said goodbye
I saw your cancelled check for the airfare, didn't know flyin'
got too high
Beans for breakfast once again, hard to eat 'em from the can.

I've run out of clean utensils, I'm a hungry nasty lonesome man
I heard the crows outside my window, guess it's me they're talk
in' about
The fire you lit has burnt to cinders, every good things fizzle
d out
Beans for breakfast once again, hard to eat 'em from the can.

Wish you'd come back and wash the dishes, I'm a hungry nasty lo
nesome man
Caught a cold with the window open, crow droppings o my window
sill
Probably got histoplasmosis, got no gun or I would kill them cr
ows
Beans for breakfast once again, hard to eat 'em from the can.

Plastic forks are a dime a dozen I'm a hungry nasty lonesome ma
n
Finally made it to the mailbox, felt so bad I thought I'd die
All I got was a bill from my doctor, well I guess flyin' ain't
so high
Bean for breakfast once again, hard to eat 'em from the can.

Blue tick mattress cold and greasy, I'm a hungry nasty lonesome
man
The house burned down from the fire that I built, in your close
t by mistake
After I took all them pills, but I got out safe in my duck head
overalls
Beans for breakfast once again, I'm a hungry nasty lonesome man
.
