

# Lay Back With My Woman

Johnny Cash

Well my saddle's on my horse but I ain't goin' nowhere  
'Cause my ridin' days are over and there's vultures in the air  
Well the trails have been a brother and a devil all in one  
I'm gonna lay back with my woman throw away my fightin' guns  
Well I spent many lonely evenings listenin' to the howl of the wolfe  
Talk about her like a loved one did you ever kiss a horses' hoo  
f  
They keep puttin' up all them fences to section up the country  
mile  
I'm gonna lay back with my woman and take it easy for a while  
  
Yes there's danger on the prairie there's rattlesnakes that bit  
e  
In every little town you come to there's always a good old figh  
t  
Well there's nothin' like his and her place I wouldn't say it i  
f I didn't know  
I'm gonna lay back with my woman and love her sweet country sou  
l  
Well you see her arms are ready and the kitchen's full of food  
She's got a smile that's pretty but then it all looks kinda goo  
d  
Can you blame a guy for thinkin' he'd be crazy to hit the trail  
I'm gonna lay back with my woman and put my horses up for sale  
I'm gonna lay back with my woman put my horses up for sale
