

# Life Goes On

Johnny Cash

My baby left me just the other day  
I guess the things will never be the same  
But I must forget that she is gone  
'Cause time goes by and life goes on

Making plans, shaking hands  
Try to prove that I'm a man  
It's hard to do but I must try  
'Cause life goes on and so will I

It's been kinda tough these last few days  
Trying to act normal and be gay  
It's not easy to be all alone  
But time goes by and life goes on

If I see her anywhere  
I hope she thinks that I don't care  
For after night there comes the dawn  
Yes, time goes by and life goes on
