## **Water From The Wells Of Home**

**Johnny Cash** 

There's a stool along the road to freedom Like a gypsy in a guilty cage But rising has not always been bright Destiny dreams are made

My days all run together
Like a timeless honeycomb
I find myself wishing I could drink again
Water from the wells of home
Water from the wells of home
Water from the wells of home

I've seen all your shining cities
Lean against the yellow sky
I've seen the down, and I'll get better
I've seen many of strong men die

Well, the troubled hearts in the worried men Things that I've been showed Keep me always returning to Water from the wells of home Water from the wells of home Water from the wells of home

I want to come back some day
To the water from the wells of home
Lord, take me back someday
To the water from the wells of home

I want to come back some day
To the water from the wells of home
I want to come back some day
To the water from the wells of home
Lord, take me back someday
