

# It Would Be You

Johnny Gill

Listen. Pinch me if I'm dreaming  
As a matter of fact, I take that back  
Let me lay there... inside of your love  
Listening to your heartbeat  
Girl ain't no feeling better than feeling on your body  
Girl don't you move a muscle, I just wanna touch ya  
If you ever took your love away  
I can truly say I'd die right here today  
Don't give me the world... I just want my girl

(2x)

If I could have anything, I'd put it on everything  
That it would be you you you  
I just want you u u

You are my love and my love for you girl  
Is all that I need if I had nothing more  
Than our love, I'd be just fine with our love  
Your shoes can't be filled they cannot wear your heel  
The truth is in you girl there's nothing else real than our love  
I'll be just fine with our love  
Woman if you ever took your love away  
I could truly say I'd die right here today  
Don't give me the world, I just want my girl

(2x)

If I could have anything, I'd put it on everything  
That it would be you you you  
I just want you u u

Now what would I do, where would I be?  
If there was no you, there'd be no meeee  
Now think about that girl  
Ohhhhhhhhhhh oh yeah  
What would I do where would I be  
If there was no you there would be no me  
Now think about that girl think think think
