

I Remember You and Me

Johnny Mathis

Separate ways
That's how we're gonna go from this day on
And though they say that love is never gone
Somehow it changed
And we'll never be the same

But I remember you and me
And how good it used to be
Making love, wakin' up together
Laughin' in the dark
Loving heart to heart so tenderly
I remember you and me

People grow
And though you try to hold on for a while
You finally see the sadness in the smiles
It's time to leave
But you're still a part of me

Oh, I remember you and me
And how good it used to be
Making love, wakin' up together
Laughin' in the dark
Loving heart to heart so tenderly
I remember you and me

Maybe if we tried more
Laughed more, cried more
We still might be together
But that's not true
And I can see that we loved so perfectly
We just didn't last forever, forever

Oh, I remember you and me
And how good it used to be
Making love, wakin' up together
Laughin' in the dark
Loving heart to heart so tenderly
I remember you and me
Laughin' in the dark
Loving heart to heart so tenderly
I remember you and me

I remember you and me
And how good it used to be
Making love, wakin' up together
Laughin' in the dark
Loving heart to heart so tenderly
I remember you and me
