

Love Brought Us Here Tonight

Johnny Mathis

This was no accident
No, this was heaven-sent
Somebody meant for us to find each other
I never felt this day
Somehow I knew today
All I can say is "it's now or never"

Love, love brought us here tonight
Oh! Love, love was our guiding light
So there's nothing to fear
Love brought us here tonight

I feel it in my soul
It's out of my control
I wanna hold you in my arms forever
Until the end of time
This dream of yours and mine
Will never die as long as we remember

Love, love brought us here tonight
Oh! Love, love was our guiding light
So there's nothing to fear
Love brought us here

Look up at the sky
Baby can't you see it?
Look in my eyes
Oh! You've got to believe it

Love brought us here
Oh! Love brought us here tonight
...

Oh! Love brought us here tonight
Oh! Love, love was our guiding light
So there's nothing to fear
Love brought us here
Love, love brought us here tonight
Oh! Love, love was our guiding light
So there's nothing to fear
Love brought us here...
