

My New Life

Johnny Rivers

Sunday morning I woke up with a feeling
Sky was clearing, I could do no wrong
This is the first day of my new life
I'll take my time and make a brand new song

Yesterday I was lonely and down
And I needed someone to be friendly
You came around like the sun that is found
When the rain goes away 'til a new day
'Til a new day

Got a feeling I'm close enough to something
I might've had before, I just don't know
Why take the time to look behind us
When all we care about is where we go
Where we go

Yesterday I was lonely and down
And I needed someone to be with me
You came around like the sun that is found
When the rain goes away 'til a new day
'Til a new day

When the night is gone
You're like the morning dawn
You're just like sunshine after rain
When the night is gone
You're like the morning dawn
You're just like sunshine after rain
Rain

Yesterday I was lonely and down
And I needed someone to be with me
You came around like the sun that is found
When the rain goes away 'til a new day
'Til a new day

Sunday morning I woke up with a feeling
Sky was clearing, I could do no wrong
This is the first day of my new life
I'll take my time and sing a brand new song
