

## Something Strange

Johnny Rivers

Something strange is happening to me  
Something more than my two eyes can see  
And I know I can no longer live in false reality.

Lies get clearer every day  
Truth this time you're here to stay  
And this feelin' deep in my soul will not pass away.

The question came to me  
Is there more than I could Be?  
Then I opened up my eyes to what I am inside.

Life gets sweeter every day  
Love you're here to stay  
This feelin' down in my soul will not pass away.
