

Your First and Last Love

Johnny Rivers

Could this be the first time
you've ever been in love?
And do you think
your heart could really know
the meaning of?
Oh, if it is, could it always be
your first and last love?

Could I be the first one
to ever hold your hand?
To see you just the way you are
and really understand?
Oh, if I am, could I always be
your first and last love?

Will it always be just you and me,
will I be the only one?
Will there come a day you will say
that it was all in fun?
Some day when we're older,
could I take you for my wife?
Or will there be another love
to change our way of life?
Please tell me that'll I'll always be
your first and last love.

Will it always be just you and me,
will I be the only one?
Will there come a day you will say
that it was all in fun?
Oh, oh, oh some day when we're older,
could I take you for my wife?
Or will there be another love
to change our way of life?

Please tell me that I'll always be
your first and last love.
