Execution Song

I'm not your baby no more cause I let you go with none let you go with no score

Well I'm not a baby no more with eyes full of sun, I'll feed my love you get bored

I get around execept don't wanna spend my time on you my love Fucking get rid of this heartache again

There won't be no maybes' no more with eyes full of sun, I'll feed my love you get bored and I'll have my baby now fucking D-chord, will beat it out of me' I'll feed my love you get bored

I get around Bye bye bye, why can't you die stop living in my mind, cause everytime I see a way to brake myself free from you, stick in my head like glue

Johnossi
