

Worried Ground

Johnossi

Be kind and let me figure out these hopes and dreams
You hold the key back at me now then it's gone again
Won't you please come again?

You know I've been afraid of you ever since
I let you in the sacred place that is gone again
Could it please come again?

I live the streets above the town
Vibracious high
Then I fell into the underground (deep down)
Vibracious low

Well the town it is my body and
The atmosphere my smelly swamp
And I just wanna know where to go
what is coming around?

Well the town it is my body and
The atmosphere my smelly swamp
And I just wanna know
I just wanna know where I'm gonna go
I just wanna know what is gonna break me down
The next time it comes around

'Cause I don't wanna live or sleep on worried ground
Who on earth could live or sleep on worried ground?
Well I don't wanna live or sleep on worried ground
I go down again until it's done coming around

Well the town it is my body and
The atmosphere my smelly swamp
And I just wanna know
I just wanna know where I'm gonna go
I just wanna know what is gonna break me down
the next time it comes around

'Cause I don't wanna live or sleep on worried ground
Oh I don't wanna live or sleep on worried ground
And who on earth could live or sleep on worried ground?
And I don't wanna live or sleep on worried ground
Who on earth could live or sleep on worried ground
I go down again until its done coming around
