

# So Bad

Jojo

Look  
Boy, look at me now  
Do it, do it, do it  
Give me all of your power

I'll never expose you  
Never use your love in vain  
Do it, do it, do it  
Then can we do it again?

Does she know you like it in the morning  
Know you come without a warning  
Know you smile when you're performing  
Oh baby, she don't need to know that you can need it so bad  
Need it so bad  
You say you love her but you need me so bad  
Need it so bad  
Need it so bad  
Don't think you love her if you need me so

I'll be in a trench coat  
Back of the bar in the shadows  
We can keep it simple, wear your hat low  
Act like you don't know me if they ask you, if they ask you

Come  
Come with me now  
Move before we lose it  
And the silence gets loud

I will always want you  
And keep letting you in  
Take it, take it, take it  
Let's feel it again

Does she know how you like to get dirty  
Know how much you like to hurt me  
You don't ever have to worry  
Oh baby, she don't need to know that you can need it so bad  
Need it so bad  
Don't think you love her if you need me so bad  
Need me so bad  
Need me so bad  
You say you love her but you need me so

I'll be in a trench coat  
Back of the bar in the shadows  
We can keep it simple, wear your hat low  
Act like you don't know me if they ask you, if they ask you  
I'll be in a trench coat  
Back of the bar in the shadows  
We can keep it simple, wear your hat low  
Act like you don't know me if they ask you, if they ask you

You want it bad, bad, bad, bad, bad  
I want it bad, bad, bad, bad, bad  
You want a bad-bad-bad for the summer

You're just my late-night friend undercover
