

# On And On

Jon B.

Baby step into my office  
I ain't got no clients  
Don't need an appointment  
Baby I take walk-ins yea  
I find it hard to keep control (around you)  
If you need to fix it  
I got the prescription  
Just take two of these and  
Tell me how you feeling  
In the morning

Cause your body telling me  
That you want it now  
So I'm a give it to you right now  
Baby you ain't gotta trip  
Cause I'm a handle it  
Like a licenses professional  
Cause I never thought love (never thought that love would ever feel this good)  
Girl we just had to take it there take it there (all they way to the top if you no what I mean)  
Baby I'm going set the mood  
Put on some old school jams for you

Girl I can go  
On and on  
On and on with you  
I wanna go  
On and on  
On and on  
On and on with you  
I wanna go  
On and on  
On and on with you

Ooo taking your clothes of  
Have your booty naked  
I can see them places  
That I wanna kiss you  
All over and over and over again  
Once I let you have it  
You gon be an addict  
You gon keep on coming back (coming back for more)  
I always give you more (always give you more)

Cause your body telling me  
That you want it now  
So I'm a give it to you right now  
Baby you ain't gotta trip  
Cause I'm a handle it  
Just like I'm suppose to do  
Cause I never thought (never thought that love would feel this good)  
Girl we just had to take it there take it there (all they way to the top if you no what I mean)  
Baby I'm going set the mood  
Put on some old school jams for you

Girl I can go  
On and on  
On and on with you  
I wanna go  
On and on  
On and on  
On and on with you  
I wanna go  
On and on  
On and on with you

I can tell from the faces you make  
Baby you like it you like it  
And we ain't never did it quite like this  
I m sure your excited excited excited

Never thought that love would feel like this  
Never thought that love would ever feel this good  
Girl we just had to take it there take it there (I just had to take you there)

Put on some old school jams for you

Girl I can go  
On and on
