

French Style

Jonathan Richman

French style, French style is so fussy
French style, French style is so proud
French style, French style is creamy color
More often quiet than loud.

French style, French style what is it?
Something sort of delicate
French style, French style, French Style.

It's not as foxy as Italian
Nor as dramatic as in Spain
But what they do is so hard to copy
It's something that they can do with something plain.

French style, French style what is it?
Something sort of delicate
French style, French style, French Style.

It's not as foxy as Italian
Nor as dramatic as in Spain
But what they do is so hard to copy
It's something that they can do with something plain.

French style, French style what is it?
Something sort of delicate
French style, French style, French Style.
