

Satisfy

Jonathan Richman

Well, I can try this and I can try that
But before I do I'll ask
Would this be something that will satisfy?
I get lonely town to town
But before I look around
Will this be something that will satisfy?

Oh, satisfy, satisfy, satisfy, satisfy
Without love it just won't satisfy.
Love is king with crown of gold
Without love a touch feels cold.
Without love it just won't satisfy.

Love is king with sword of steel
To slay the false and guard the real.
Without love it just won't satisfy.
Love is kind with crown of gold
Without love a touch feels cold.
Without love it just won't satisfy.

Said satisfy, said satisfy, satisfy,
Without love it just won't satisfy.
Love is king still on the throne
And I will leave it there alone.
Without love it just won't satisfy.
Without love it just won't satisfy.
