

Didn't Ever Wanna Let You Go

Jonny Craig

Waiting on the phone to ring
I wanna hear you
I wanna feel you
Waiting on your heart to beat
But you're the only thing I want to see

Don't tell me I'm the product of a fantasy
Don't tell me you would ever leave
Never leave me, yeah

She had a little madness
But damn that bitch was magic
I didn't ever want to let you go
She loves it when I flash shit
And bought her all the bad shit
And you know, and you know
I try to tell her but she doesn't exist
She only lives in my high
She had a little madness
But damn that bitch was magic
I didn't ever
I didn't ever wanna let you go

Waiting on your phone to ring
I don't hear you
I don't feel you
You're waiting on my heart to beat
I'm the only thing you wanna see

Don't tell me you're the product of a fantasy
God dammit, this is what I need

She had a little madness
But damn that bitch was magic
I didn't ever want to let you go
She loves it when I flash shit
And bought her all the bad shit
And you know, and you know
I try to tell her but she doesn't exist
She only lives in my high
She had a little madness
But damn that bitch was magic
I didn't ever
I didn't ever wanna let you go...
Go...
(I didn't ever wanna let you)

Baby, this is madness
But damn this shit is magic
I hated that I flash shit
And buy up all the bad shit

I don't ever wanna let you go
I don't ever wanna let you go
I don't ever wanna let you go
No, no

She had a little madness
But damn that bitch was magic
(I didn't ever want to let you go)
She loves it when I flash shit
And bought her all the bad shit
And you know, and you know
I try to tell her but she doesn't exist
She only lives in my high
She had a little madness
But damn that bitch was magic
I didn't ever
I didn't ever wanna let you go

(She had a little madness
But damn that bitch was magic
I didn't ever)
I didn't ever wanna let you go
(I didn't ever)
I didn't ever wanna let you go

Damn that girl was magic
But fucking her was madness
Damn that girl was magic
But fucking her was madness
Something that you'll never know
