

# Swallow You Whole, While I Fade to Black

Jonny Craig

Take the air, from my lungs, put it inside of her  
Take the air from my lungs put it in her  
She's the one, she's the one, she's the one, who deserves to live  
She's the one I pray to god he forgives, pray he forgives. He forgive  
s

Bend my eyes to the thoughts of you, I never knew loss until I met yo  
u

Can't stop, can't stop, can't stop who I've become  
My love will never be sung  
Can't stop, can't stop who I've become  
My love will never be sung

If we drown, let me... make it for you  
Air from my lungs, let the night swallow us whole

Fading to black, fading to black, fading (nooo)  
Swallow you whole, you deserve to get back up now  
If so, let it out, let it out, I'm fading to black,  
Now, let it out, let it out,  
Let it out, no

Its come time to let go of (who am I?)  
I try to let it go,  
Go behind, where I...  
Stopped trying to let it out

Oh no, now I'm alone.  
No, I am home

I learned the loss, is the love,  
No I'm home with you,  
Now go  
There's a road for us to heal now  
One, for, for us to heal now  
Oh this road  
And these hallow sounds  
There's room  
For us to, heal in my heart  
(these sounds)  
Back, back and forth  
Back back and forth  
You're ready, you're ready now

Take this for what its worth  
Don't bother, I'm lost  
Take this for what its worth  
Don't bother I'm gone.
