

# Run Away

Jordan Pruitt

2 AM and I'm still awake  
I feel the beating of my heart break  
Why'd you have to be so mean?  
I thought you said you loved me

Oh, you let me down  
And I want to block you out

You're everywhere I go  
You're the eyes on every face  
When all I wanna do is run away  
You're the voice inside my head  
That don't let me forget  
There's no way to run away  
Run away (4x)  
There's no way to run away

And baby don't think that I don't know  
About every little lie you told  
And when you feel the tears behind your eyes  
Oh I hope, I hope, I hope you realize  
Oh yeah

Oh, you let me down  
And I want to block you out

You're everywhere I go  
You're the eyes on every face  
When all I wanna do is run away  
You're the voice inside my head  
That don't let me forget  
There's no way to run away  
Run away (4x)  
There's no way to run away

Oh I try and change my mind, change my mind  
And I thought that I was doing fine, doing fine  
But you, you're a step behind  
Do what you do to pull me back to you

You're everywhere I go  
You're the eyes on every face  
When all I wanna do is run away  
You're the voice inside my head  
That don't let me forget  
There's no way to run away  
Run away (4x)  
There's no way to run away
