

# Sixteen

Jordan Pruitt

Yeah

Every time we kiss, I think of our first date  
Told me that you loved me after just one day  
I could see forever when your lips touched mine  
With a white picket fence here on the county line

Driving in your pickup through the countryside  
Singing out loud to all my favorite lines  
Getting so caught up that we lose track of time  
Go speeding home through all the yellow lights

'Cause all we'll ever be is dreams  
All we'll ever be is sixteen

I fell in love on my front porch, counted stars on the swing  
You got my daddy's approval and I got you next to me  
When we pull up in the driveway, I forget how to breathe  
It's funny how it's like a photograph to me  
All we'll ever be is  
All we'll ever be is sixteen

Sneaking out my window just to hold your hand  
I'd start to sing, you'd pull me in to dance  
I don't know where our story got off track  
But it still makes me smile whenever I look back

'Cause all we'll ever be is spring  
All we'll ever be is sixteen

Well, I fell in love on my front porch, counted stars on the swing  
You got my daddy's approval and I got you next to me  
When we pull up in the driveway, I forget how to breathe  
It's funny how it's like a photograph with me  
'Cause all we'll ever be is  
All we'll ever be is sixteen

Innocent and wild, we were brown-eyed and crazy  
Young and reckless and free  
We'll always have sixteen, yeah  
Oh

I fell in love on my front porch, counted stars on the swing  
You got my daddy's approval, I got you next to me  
When we pull up in the driveway and I forget how to breathe  
It's funny how it's like a photograph to me  
'Cause all we'll ever be is  
All we'll ever be is, yeah  
All we'll ever be, all we'll ever be  
All we'll ever be is sixteen
