

Who's to say

Jordan Pruitt

It may have looked like I was crushed
From your point of view
That's how it goes sometimes with love
The bullet hits you

It can take you to the highest high
Shoot you down from the clear blue sky

It may have look like I was crushed

Who's to say, I'm not okay?
It's not your place
It's my life, It's my own way
Tell me, who's to say, that I'm afraid?
It's my life, It's my own way
It's my right, to be lonely
Who's to Say, Who's to Say

You can walk right downtown
See lovers everywhere
Like, fireworks in a crowd
I'm tempted to start to stare

Cause it can take you to the highest high
But it'll burn you right up inside

Just like fireworks in a crowd

But who's to say, I'm not okay?
It's not your place
It's my life, It's my own way
Tell me, who's to say, that I'm afraid?
It's my life, It's my own way
It's my right, to be lonely
Who's to Say

You're just waiting for me
To wave a white flag and break down for you
But I'm not giving in, just because you want me to
Who's to Say?

Who's to Say, I'm not okay?
It's not your place
It's my life, it's my own way
Tell me, who's to say, that I'm afraid
It's my life, it's my own way
It's my right to be lonely
Who's to Say?

Tell me, Who's to Say?
