

Hey everybody, It's a good day  
I read the cards and they told me the way  
Out in the jungle i was the pray  
I was haunted, not wanted  
and i kept on moving around the world  
knowing my purpose made me strong

So big in Japan  
they know my name in Iran  
So dark down in New York City  
I play across the American land  
I got some friends in Hollywood  
Oh to the movies do you think i should im Big, Oh yes im Big  
hey.

Ive seen some trouble in my time  
But i never could stop thinking it was only for awhile  
Now im making videos, and the radio's my friend  
Believe it, If you want it  
People may talk bad of you  
The bitterness is shown, But all the friends ive met ill never  
let go

So huge in Japan  
They no my name in Iran  
So dark from down in Mexixo  
To the European land  
The ear of the neighbour hood, makin money with the band  
im big, oh yes im big, big, ohhhhh his big, so big yes i am, bi  
g, so big,

And ill keep on moving around the world, knowing my purpose mak  
es me strong, people may talk bad of me, there bitterness is sh
