Good Friend

Joseph Arthur

In a hungry time In the middle world Pearls before swine In the dark a girl

Where are you this time I consider you to be A good friend of mine

In a haunted life Will you take my call I can't win this fight Unless you take a fall

Where you are this time I consider you to be A good friend of mine

I consider you to be A good friend of mine

I consider you to be A good friend of mine

I consider you to be A good friend of mine
