Like to Get to Know You

Julie London

But I'd like to get to know you (yes I would)
But I'd like to get to know you (if I could)
But I'd like to get to

Finally I found searchin' all around
(...know you)
Just was not the answer
One I thought was true, looked a bit like you
I figured I might chance her

But I'd like to get to know you (yes I would)
But I'd like to get to know you (if I could)
But I'd like to get to

Hardly need to say, she went on her way
(...know you)
Said it was all over
Well, it's been some time and I guess that I'm
Just meant to be a rover

But I'd like to get to know you (yes I would)
Yes, I'd like to get to know you (if I could)

Well, I can't promise that I'll spend a day with you
I can't promise that I'll find a way with you
I can't promise, no I can't promise
That I'll love you

I'd like to get to know you, know you
Know, oh, oh

Once I thought I found her
Built my world around her
(But I'd like to get to know you, yes I would)
Once I thought I found her
(Yes, I'd like to get to know you if I could)
Built my world around her
(But I'd like to get to know you, yes I would)

Finally I found her
(Yes, I'd like to get to know you if I could)
Built my world around her
(But I'd like to get to know you, yes I would)
