Junior Boys

Let's leave tonight One last time Before it gets too cold

Just one more round
In that tourist town
With another home for sale

And then one more year Becomes one more year And you'll forget me soon, I fear

Through the crooked roads And the static codes On the hotel radios

Broken down
Again
So steal the wire
From the rain

Miles away And it won't play Not another sound 'Til you say You're okay

And the motor starts
Its cold and vicious heart
Moves me close to you each day

And when I arrive
My god, you'll be surprised
By all the lines that changed

And one more year Becomes one more year And the lights become less clear

So let's meet the road Tonight we'll drive back home Forget the hotel radios

Broken down
Again
So steal the wire
From the rain

Miles away And it won't play Not another sound 'Til you say You're okay
