

## Always Been Real

Justice Crew

My feelings for you have always been real  
After all this time, tell me that you feel  
Always been real

How you feel, how you feel  
You know it's a shame baby, how you kill  
Love the way you grind when you wear them heels  
Hey mama, hey mama  
Baby it's your night, it's your night  
Murder with the body, girl it's your crime  
Only live once baby it's your life  
Hey mama, hey mama

Say na na na na na na na eh oh ey  
Baby don't you take your hands off me  
Come on girl  
Body banging like my 808  
So let me tell you how I feel

My feelings for you have always been real  
After all this time, tell me that you feel  
My feelings for you have always been real  
After all this time, tell me that you feel

How you feel right now, feel right now  
Girl you know I gotta keep it real right now  
If I was a cop I'd pat you down  
Hey mama, hey mama  
Now we can't go home, can't go home  
Have another shot, you can't go wrong  
Show me all the lolly picks in your phone  
Hey mama, hey mama

Say na na na na na na na eh oh ey  
Baby don't you take your hands off me  
Come on girl  
Body banging like my 808  
So let me tell you how I feel

My feelings for you have always been real  
After all this time, tell me that you feel  
My feelings for you have always been real  
After all this time, tell me that you feel
