

Take It Out On Me

Justin Bieber

Kid

You can take it out on me
You can take it out on me

Sometimes I don't mind you having the worst day
Oh no I don't
All the stress turned into built up energy
Yes it does
On the edge I'm your net go on and fall back
Easy on that pressure point I love to push that
Let your frustrations out right here
I'm your psychiatrist, let's talk 'bout it
We can use sign language, I know your body
I see the weight weighing on your shoulders
It's so heavy
Let me be the meaning of your composure
Oh oh

You can take it out on me
You can take it out on me
I'll be your punching bag hit me with all of your might
And get it all out till you feel light
And take it out on me
You can take it out on me

Yeah I'm your plug
Whatever you need I make sure you get enough
And when your battery gets low
I'ma be the one to charge you up
Let me massage your mental and your physical
Whenever you lose doubt I'll be your miracle
When you're around me you should feel invincible
Please don't forget that

You can take it out on me
You can take it out on me (Hey, hey, hey)
I'll be your punching bag hit me with all of your might
And get it all out till you feel light
And take it out on me
You can take it out on me
