

# White Girl

Juvenile

(Lil Wayne)

Listen...I'ma hundred percent hussla from my face to my feet  
My lifetime cases the street, my dime places the street  
Until I wake and see another fuckin day is relief  
I pray that he keep, I'm scrappin my knees from chasing this cheese  
I had point guard dreams of playin for some team  
Hit the block and made NBA money in one week  
See I hussle in the hood and plus I fly birdies  
And play the tracks out every month so I can ride dirty  
Needed someone to manage my money I hired Shelly  
But Shelly started talkin to much so she died early  
They got me loadin up my Benz with my eyes blurry  
I sent the message to the fucker at bout five thirty  
Now if the bitch ain't got my dice for me then I'm sorry  
But i'ma leave everyone who outside bloody  
And then I go in the stash get the coke and the cash  
I'm lettin niggas score it for half, I'm hopein it last  
But still nigga don't, I might have to just go in the lap  
And if its slow in the ass back to the rope and the mask

(Chorus) (Lil Wayne)

Man we got that white girl  
And wigga talk bout uh price to make it right for you  
And if you like that allllright then we got what you need  
And if you like that nasty broad then we got low ki's..  
Dog who got um? We got that white girl  
And wigga talk about uh price to make it right for you  
And if you like that allllright then we got what you need  
And if you like that nasty broad we got them low ki's..  
Man who got um? We got that white girl  
And wigga talk about uh price to make it right for you  
And if you like that allllright then we got what you need  
And if you like that nasty broad we got them low ki's..  
Playa who got um?

(Juvenile)

I hate when a nigga flex up and he's makin it sound  
As though he been doin that border, but that nigga would drown  
My block been infiltrated by uh whole lot of fake ass niggas  
Scared ass niggas, won't even bust uh grape ass niggas  
I'm talkin to you! so take it how you want ho  
I've been here for uh minute, so I looked up and you dont move  
Ya partnuhs been fuckin wit ya cause they know how you is  
Niggas be smackin ya and humpin you and snatchin yo shit  
Matter fact get the fuck out my face, befo' I put you in ya place  
I'm one secound from bustin the drapes  
Well you can get ya money and all but not ch'ere  
Lil daddy I been runnin this section for 5 years, first of all I dont like y  
a  
I dont know ya, run and get ya gun if you want I'm gon show ya  
You one of them niggas try earning your stripe  
Lil daddy I'm one of them niggas that'll hit ya at night

That liquor like dope nigga I gots to have it  
Cook flip the brick with some heavy traffic  
Guns gon bust if these niggas be lackin  
Cadallac, gold spokes, brick head, and baskets  
Overflow this bitch white work gone faster

Tragedy of uh murder case twisted and laughin  
In the bentley drop top and Pac is blastin  
Hit the hood jumpin the cop, we start the stashin  
Bunch of white t-shirts phone calls harrasment  
Bought a pot on that shit make it hot and ejectin  
He standin on my two feet he purrin "I ain't blastin"  
Coming up from child hood days about my cashing  
Hundred g's on the trunk of the Escalade Cadi  
I never did listen , I never mind my daddy  
My brother gave him a game cookin in an ally  
4 bricks two guns I'm runnin to my parents
