Then I fell in love with music I was only 13
Grab the mic started flowing plenty doubted I kept going
Plenty years in that booth perfecting craft I had to show em
While y'all sleeping I was working all night getting it in
Mama looking at me crazy cuz I failed a class again
Couldn't work a 9 to 5 cuz that shit ain't for me
In my head had vision one day I'll be on TV
Putting on for side but I knew I had to grind
It ain't happen overnight man this shit took sometime
Stayed focus had a dream then I hit them billboards
And I'm only getting started I gotta plan nigga what's yours
