

Huh she like my energy  
She gon see that I'm the one that she need  
Now she don't wanna leave  
We walked in with that drank and that tree  
That bitch won't let me be  
My little freak, she know him she know me  
You know its M.O.B  
Stack that money, stay ten toes and lowkey

Pullin' up on the curb now  
Oh what you heard now  
I came from the dirt, I live in the burbs now  
Niggas gon give me shit, fuck it I can splurge now  
Laying around with your bitch, getting on my nerves now  
Buddy said he want a six ting, got some big dreams  
Pullin' up in that white thing, lookin' like ice cream  
Diamonds that's on me icy, I think they like me  
Shawty like how I change, on my white tee

Huh she like my energy  
She gon see that I'm the one that she need  
Now she don't wanna leave  
We walked in with that drank and that tree  
That bitch won't let me be  
My little freak, she know him she know me  
You know its M.O.B  
Stack that money, stay ten toes and lowkey
