

# Someone Just Like You

K's Choice

I fell in love today  
I Can't find the words to say  
How much I've wanted to  
Find someone just like you

The world seems different now  
More like a home somehow  
More like a haven for the hope I couldn't find til now

One look and it's done  
One look and I'm lost  
Before we've even begun

Tell me we're ok  
Tell me "you can stay"  
Say "you're not a fool to let my heart go your way"

Tell me this is real  
Head over heels  
So glad I've found  
Someone just like you

The moon will shine its light  
Upon this very night  
And in your eyes I see  
This love was meant to be

One look and it's done  
One look and I'm lost  
Before we've even begun

Tell me we're ok  
Tell me "you can stay"  
Say "you're not a fool to let my heart go your way"

Tell me this is real  
Head over heels  
So glad I've found  
Someone just like you

One look and it's done  
One look and I'm lost  
Before we've even begun

Tell me we're ok  
Tell me "you can stay"  
Say "you're not a fool to let my heart go your way"

Tell me this is real  
Head over heels  
So glad I found  
Someone just like you
