

# Easier

Kandi

(feat. Faith Evans)

[chorus]

It gets...it gets easier  
Without you  
I won't feel right...I can't feel right  
Without you  
But it gets...it gets easier

[verse1]

I was in misery without you  
I could not imagine life without you  
It was such a painful thing to go through  
To have you being taken away  
But I...I dried my tears  
Even though it took a couple of years  
I guess I had to just let go of my fears  
Of being alone...but it gets

[repeat chorus]

[verse2]

I thought my life was over without you  
Thought I would be oh so sad darling  
Cuz you left me here, to face all my fears  
All by myself, with nobody else  
Now that you're gone I just gotta move on  
But my lovin's never changed  
It'll always stay the same  
I felt you were wrong  
The lonely nights alone  
I get weak then I'm strong  
It gets easier

[repeat chorus]

[bridge]

Sometimes it's really hard to just let go  
Don't feel like moving on...Oh yeah I know  
Just breathin' air is hard to bear  
When the one that you love is not there  
Thoughts of you sit heavy on my mind  
I always reminisce on our good times  
I just take it day by day  
I know that'll never be easy  
But I can say it gets easier

[repeat chorus]
