

My Party

Karel Zich

You won't hear no records at my party
Hm, my record collection is long time gone
One by one my songs went out the window
Hm, ever since you left me all alone

Oh, it's my party - here won't be no music
You will never know just how I feel
What do you know about a man who's sad and lonely
If you give me one big smile- well, it's a deal

You won't see no people at my party
Hm, it's so easy countin' all my guests
There's only me who came here first and as it happens
I'd feel great if only you would be the last

Oh, it's my party - I'm the one-way leader
I can lead you back to find the past
Then we can have our meetin' somewhere in the middle
And that's the time when you can be my guest

If you let me see you at my party
We may feel like dancin' all night long
Then I may change my mind and have a little music
At every other party from now on
