

# the End of Me and You

Kari Kimmel

If you could see me walking by  
I wouldn't have to tell you twice  
You'd understand what makes me happy

I'm makin' my way to the sky  
I'm goin' up you don't know why  
You don't understand why you can't change me

'Cause every day, every day, every moment I want you  
In every way, every way I play the fool you know I know I do  
I need a break, I need a break, so gimme a break before we're  
through  
Don't hesitate, don't even wait or that's the end of me and you

You know that I wanted to be a star  
You knew that I'd go very far  
But it wasn't your fame, not your story  
Oh, no

Now you've got problems all the time  
Be on TV is not a crime  
You shouldn't know the so much more to me

'Cause every day, every day, every moment I want you  
In every way, every way I play the fool you know I know I do  
I need a break, I need a break, so gimme a break before we're  
through  
Don't hesitate, don't even wait or that's the end of me and you

'Cause every day, every day, every moment I want you  
In every way, every way I play the fool you know I know I do  
I need a break, I need a break, so gimme a break before we're  
through  
Don't hesitate, don't even wait or that's the end of me and you  
The end of me and you  
The end of me and you
