

## Foe To Friend

Kashmir

I see you stress  
And I have a good time  
There will never be  
They're waste our time

Before it sank  
Our broken palm sack  
The seven seas  
Be all from the start

Take my hand  
Peace to mind  
There are again  
Comes to solve everything

Come back  
Before our arms  
There come times  
When nights are long
