

FLYING FIRE

Kat

It's starting to dawn
with the sirens howl
they are flying out
out of control
Engines running
get ready your guns
no time to fear
over the clouds

Fly on your way
fly on your way
fly on your way
fly on your way

Fire and run
bite to the bone

It's starting to dawn
with the sirens howl
they are flying out
out of control
No time to lose
fire your guns
Chase enemies
into the clouds

Fight for your rights
oh, to free all your land
gotta fight for your rights
for your home
Fight for your rights
oh, to free all your land
gotta fight for your rights
for your home

Fire and run
bite to the bone

Fight for your rights
oh, to free all your land
gotta fight for your rights
for your home
Fight for your rights
oh, to free all your land
gotta fight for your rights
for your home

Exterminate the beast
move it out of your way
Exterminate the beast
get it out of your way

You never know
what's gonna be
You don't know
you'll be back
but you believe

You never know
but you never fear
And you know
she is waiting for you
at home

Fire and run
bite to the bone
Fire and run
bite to the bone
Fire and run
bite to the bone
Fire and run
bite to the bone
