

The Race For Life

Kat

Don't turn your mind
away from these
words that always sound
like scourge's beats

And You know
it is time
to go beyond our fear
And I know
yes I do
there is painful
naked truth

Across the border line
prayers never work
I know, some run for life,
but no one really knows

neither why
nor who's who
who is there for
or against
I don't know
is that you ?
I don't know
is that you ?

That race is for life
It's race against time
That race is for life
Survival drive
That race is for life
It's race against time
No matter what they... tell
who to blame for

The thousand boats
are heading
for a steady ground
(they know)
they are looking for
the promised land
the land

It's hard to feel
easy in my mind
about them land
here
Is there a safe
ground
for or against ?

That race is for life
It's race against time
That race is for life
Survival drive
That race is for life

It's race against time
No matter what they... tell
Who to blame for

That race is for life
It's race against time
That race is for life
Survival drive
That race is for life
It's race against time
No matter what they... tell
Who to blame for

The race for life!
